

“Essentials” Email Packages

Straightforward Start-Up Email Services

If you just want simple e-mail service, with no advanced functionality for the most straightforward needs, our "Essentials" e-mail packages are just the thing.

Providing simple POP-3 e-mail you can setup in Outlook, Live Mail and other standard clients. With a simple annual cost, the packages are designed for the most basic requirements - if you've got a single computer, only need a small number of accounts and just don't need any advanced functionality then this service is for you.
